## Bio

Joletta Sells is an award-winning Christian artist and worship leader.

Originally from Silver Lake, Indiana, Sells grew up in a small country church that afforded her opportunities to do everything a church music director would do before she was old enough to attend college. She explored choir directing, writing and producing church musicals, teaching basic musical skills to the congregation, and songwriting. She was regularly accompanying congregational singing by age 12. "Small churches are such a gift. They create the perfect atmosphere for young people to try their hand in ministry," says Sells. Later, Sells learned to play the guitar, organ, harmonica and also studied classical voice techniques.

Sells turned to songwriting as a method of healing from a difficult life experience. Her heartfelt soprano and gospel sounds are a great match for her intimate stories. She has released two albums and one single: *Short Stories* (2016), *Change the Station* (2017) and *Holy is the Lord* (2019), respectively. *Change the Station* was awarded Special Event CD of the Year at the 2018 Rhythm of Gospel Awards, and *Holy is the Lord* has been nominated in five categories for the 2020 Rhythm of Gospel Awards. Sells was also nominated for a 2018 Gospel Image Award in the category of Praise and Worship. Sells hopes that "those who listen to my music are encouraged to live their own lives in better ways."

Sells has led worship in many churches across the United States and regularly serves as the Worship Coordinator for First Presbyterian Church of Hollywood (Los Angeles, CA). Her original church music can be downloaded in a variety of formats at [www.jolettasells.com](http://www.jolettasells.com). Her recorded music is available on all digital music platforms including iTunes, Spotify, and Amazon. *Holy is the Lord* is currently on rotation with several Christian internet radio stations.

"Whether through worship leading, speaking or sharing my original music, I love pointing others toward Jesus. I have no other purpose," says Sells.
